

ELEMENT

COMPLETE EXTRUDED FEED FOR GROWING UP AND FATTENING TROUT

Diet formulated with a new concept, it is designed for unfavourable environmental conditions of the summer period. The particular recipe, characterized by a different protein/energy ratio, allows to satisfy the high feed intake due to the high water temperatures. The quality of the raw materials, in particular of the protein component, guarantees the best digestibility of the product. Contains LAP (Land Animal Products). Available both floating ("G") and sinking.
