

ALFA MARE

COMPLETE EXTRUDED FEED FOR GROWING UP AND FATTENING BASS AND BREAM

Extruded feed formulated according to the COOP specification which provides for the use of LAP (Land Animal Protein) but excludes animal fats. Medium-high energy diet, thanks to the inclusion of highly digestible proteins. The particular DE/DP ratio makes these products particularly versatile for growing and fattening in sea bass and sea bream off-shore farming. Totally sinking.
