

ESSENTIAL HE

COMPLETE EXTRUDED FEED FOR GROWING UP AND FATTENING TROUT

The ESSENTIAL HE line is the next evolution of Essential feeds, designed to deliver higher energy during the pre-fattening and fattening phases of rainbow trout. Its enhanced lipid profile provides elevated digestible energy, supporting rapid and sustained growth. High-quality proteins and oils ensure a balanced nutritional profile and excellent digestibility, improving nutrient uptake. With an optimal balance of Digestible Energy and Digestible Protein, ESSENTIAL HE is a reliable and versatile choice, ideal for maximizing production performance.

ESSENTIAL HE is available in three sizes: ESSENTIAL HE 3 (sinking (sizes 3, 4, 6, 8) and floating (sizes 3G, 4G, 6G) forms), it also contains L.A.P.s (Land Animal Products).
